

# EROAD INSPECT

EROAD Inspect gives you confidence your fleet is safe, capturing defects with your tablet or smart phone, and providing transparent, traceable and real-time inspection information.

### Get closer to your fleet

Tracking vehicle defects using paper or spreadsheets can be time consuming and prone to human error. EROAD Inspect makes it easy by capturing defects on a mobile device with configurable templates, and displaying them in real time on the Defect Board – ready for you to take action.

Having safe work practices in place is not enough - you need to be able to provide proof of compliance with health and safety obligations. Inspect Reports capture the original inspection record, along with its resolution, and show who actioned each item.

With Inspect drivers can be confident the defects they raise are being actioned. They can see existing defects on the vehicles they're inspecting, any comments added by the office, and the status of defects they have previously raised.

### KEY BENEFITS

#### Absolute transparency

Know exactly what defects exist in your fleet

#### Accurate traceability

Demonstrate your health and safety procedures with proof of inspections and resolution of defects

#### Reduced time to resolution

Manage defects the second they are submitted

#### Clear communications

Reduce confusion and increase driver engagement with real-time visibility for drivers of defect status

The screenshot displays the EROAD Inspect Defect Board interface. At the top, a red navigation bar contains the EROAD logo and menu items: ACTIVITY, SERVICE, INSPECT (highlighted), DRIVER, and REPORTS. On the right of this bar are icons for a list, settings, and help. A dark sidebar on the left contains icons for Defects, Inspections, and Template. The main content area is titled 'Defect Board' and includes a 'FILTER' section with 'Trailer' and 'Heavy Vehicle' filters. Below this, defects are organized into three columns: 'Reported (1)', 'Repairing (2)', and 'Repaired (4)'. A legend at the top right of the main area identifies defect statuses: 'Failed not safe' (red), 'Failed' (orange), and 'Attention' (yellow). Each defect card shows the vehicle description, status, and time since reported.

Category	Vehicle	Defect	Status	Time
Reported (1)	TRUCK 54   FRONT	Headlights	Failed not safe	2 minutes ago
Repairing (2)	TRUCK 2   LEFT SIDE	Body Work	Failed	1 hour ago
	TRUCK 12   CAB	Horns	Failed	3 hours ago
Repaired (4)	TRAILER 9   LEFT SIDE	Marker Lights	Attention	2 days ago
	TRAILER 1   FRONT	Indicator	Attention	12 hours ago
	TRUCK 19   RIGHT SIDE	Brakes	Attention	3 hours ago
	TRUCK 24   LEFT SIDE	Exhaust	Attention	2 days ago

## KEY FEATURES

### Inspect Depot

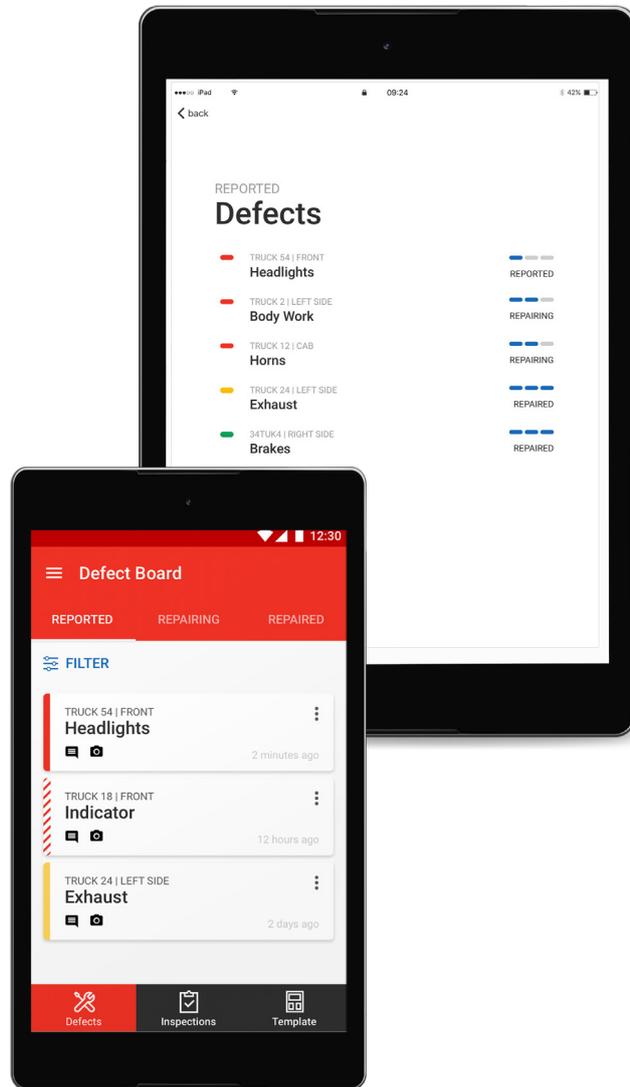

- › Configurable templates allow you to create inspections that match your vehicle or asset
- › Defect Board enables you to view, prioritise and action reported defects
- › Inspect Reports capture what defects were identified, their resolution, and who certified the result

### Inspect Mobile App

- › Guided experience walks you through the inspection
- › Capture defect details with up to three photos and a message – visible in Defect Board and reports
- › Be informed of outstanding defects of the vehicle you're about to inspect, along with the status of defects you've previously raised

### One inspection experience – multiple reports

Available on tablets and phones for both Android and iOS.

### One end-to-end solution

EROAD puts everything at your fingertips, saving you time and effort at every turn. You can rely on EROAD's powerful set of tools to take control of your RUC compliance, health and safety, and fleet management, helping you efficiently utilise your capital and reduce the costs associated with fleet operations and management.

EROAD offers a complete suite of user-friendly compliance and telematics solutions, including driver safety tools and reports, vehicle maintenance, and fuel and fleet utilisation reporting. EROAD's independently proven, secure platform guarantees accurate data that you can rely on to provide insight and competitive advantage.
