

ONE DEVICE
MULTIPLE
DRIVER-FRIENDLY
APPLICATIONS

THE LATEST IN IN-VEHICLE TECHNOLOGY

EROAD's next-generation in-vehicle hardware, Ehubo2, offers multiple easy-to-use applications on a single device, delivering better safety outcomes for your business and improving productivity and profitability.

- Drive Buddy provides real-time driver feedback with audio and visual alerts
- Interfaces with EROAD web application, Depot, to provide two-way messaging, fuel management, RUC purchase and display and driver behaviour reporting
- Unique PIN identification for individual drivers

BETTER DRIVING CHOICES

EROAD Posted Speed helps drivers to make better driving choices based on road network data, delivering real-time driver coaching in all speed zones.

- Gives drivers the ability to self-coach, reducing the need for continual monitoring of driver behaviour
- Fortnightly map loads ensure the most current road speed data is available on Drive Buddy

GREEN IS GOOD

Your displayed speed will show green as long as you're within the posted speed limit...

AMBER IS A REMINDER

...when you exceed the posted speed limit, your display turns amber...

RED IS A WARNING

...when the display turns red, that's immediate feedback that helps keep drivers safe and your business moving forward.

BETTER DRIVER REPORTING

Driver Login on Ehubo2 provides enhanced visibility into not only vehicle activity, but also individual driving behaviour.

- Reduce on-road risk with best-in-class driver behaviour analytics through being able to identify who's behind the wheel
- Driver's name is clearly displayed on screen and driving behaviour attributed to the individual, encouraging awareness of speed limit

BETTER ACCOUNTABILITY

Best-in-class telematics supports safe driving and safer roads by encouraging positive behavioural change and embedding driving behaviour measures into appraisals and reward schemes.

- Driver Login encourages driver accountability – proven to reduce speeding by at least 50%
- Organisations that pay consistent attention to EROAD's driver behaviour analytics have 38% fewer speeding events than organisations that don't view them at all
(EROAD study, June 2016, across 1344 organisations)

EASY RUC COMPLIANCE

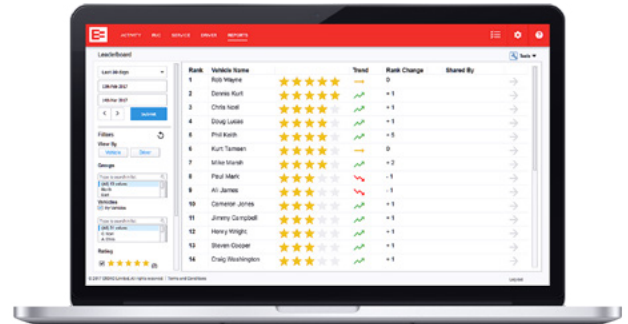

Buy your road user charges when and where you need them using EROAD's secure, bank-grade payment gateway.

- RUC licence information is delivered electronically for display on the Ehubo2 screen – no paper labels required
- Barcode can be scanned direct from the screen

REWARD GREAT DRIVING

EROAD Leaderboard uses gamification to encourage proactive driver improvement, and support driver training and reward programmes.

- Reward great driving, using Leaderboard rankings to encourage healthy competition and improved driving
- Scoring is based on key driver metrics, with ranking showing how your drivers compare with each other and against industry driver benchmarks

LEAD WITH SAFETY

Ehubo2 enhances safety and coaching with real-time driver feedback to help drivers make smarter and safer decisions. Equipping drivers with the best in-cab technology makes it easier for your company to meet its health and safety obligations.

- Visual, real-time feedback on Driver Buddy application makes drivers aware of over speed events, harsh braking, sharp cornering, sharp acceleration and unnecessary engine idling
- Trip summary at conclusion of trip provides a total score based on Drive Buddy events. The aim is a perfect score of 100
