

COMPLIANCE

EROAD AUTORUC

EROAD AutoRUC allows you to automatically purchase RUC (road user charges) in legally minimum amounts – so you can keep cash in the bank rather than on the windscreen. Your new licence is automatically purchased just before your current one expires, ensuring you're always compliant.

Set-and-forget RUC purchasing

If a vehicle is out on the road when a distance licence expires, you risk significant penalties, or vehicle downtime until a new licence is purchased. EROAD's AutoRUC removes your risk of accidental non-compliance, purchasing a new licence before the current one expires, and delivering it electronically for display on EROAD's in-vehicle hardware.

AutoRUC ensures total compliance, wherever your vehicles are, and improves cashflow, because you're able to buy RUC in legally minimum increments.

You'll also significantly reduce time spent on administration, with no requirement to continually check the current status of your licences.

KEY BENEFITS

Improve cash flow Purchase RUC in legally minimum increments

Minimise risk Reduce risk of accidental non-compliance and associated penalties or vehicle downtime

Reduce admin Save precious time by eliminating need to check status and purchase licence before it expires

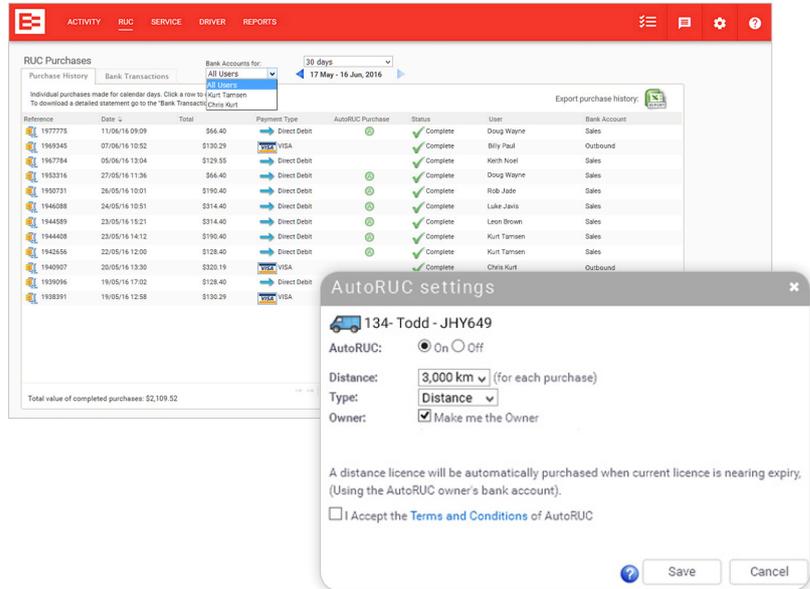

The screenshot displays the EROAD software interface. At the top, there is a navigation bar with tabs for ACTIVITY, RUC, SERVICE, DRIVER, and REPORTS. Below this is a table titled 'RUC Licences' with columns for Name, Rego, Distance reading, Type, Start Dist, End Dist, and Rem. A search bar is located above the table. A modal window is open over the table, showing a detailed view of the licence for vehicle 134-Todd (JHY649). The modal includes a 'Licence Detail' section with fields for Licence No. (497212274), Licence Type (001), and Licence Weight (14000). There is also a 'Licence Detail' section for the current licence, showing Licence No. (497212274) and Licence Weight (14000). A 'Purchase Distance Licence' button is visible at the bottom of the modal.

AUTORUC_1.0

KEY FEATURES

- › Purchases next distance licence automatically when your current licence has 250 kilometres left on it
- › Automatically sends RUC licence information to the vehicle for display on EROAD hardware device
- › Purchase only the RUC you need, when you need it, and improve cash flow
- › Easy to set up in Depot web application with direct debit authority

"AutoRUC is the best thing ever invented for a small business like mine. Most of the time it's just me running the business, so time is precious and AutoRUC is a good time saver."

Darryn Harris, Director
Container Waste

One end-to-end solution

EROAD puts everything at your fingertips, saving you time and effort at every turn. You can rely on EROAD's powerful set of tools to take control of your RUC compliance, health and safety, and fleet management, helping you efficiently utilise your capital and reduce the costs associated with fleet operations and management.

EROAD offers a complete suite of user-friendly compliance and telematics solutions, including driver safety tools and reports, vehicle maintenance, and fuel and fleet utilisation reporting. EROAD's independently proven, secure platform guarantees accurate data that you can rely on to provide insight and competitive advantage.
