

COMPLIANCE

EROAD AUTOMATED OFF-ROAD CLAIMS

EROAD Automated Off-road Claims simplifies the refund process, eliminating paper and allowing you to receive your refunds faster.

Faster, paperless refunds

Monitoring your vehicles' off-road travel, and printing and mailing RUCOR (road user charges off-road refund) forms is complicated and time consuming. EROAD's electronic RUC solution automates the process, saving you time and money.

EROAD has developed a proprietary electronic map layer, supplemented by a sophisticated geofence tool, to support off-road calculations. Off-road travel can now easily be recorded to increase your off-road refunds and improve your cash flow.

As soon as a RUC licence expires, EROAD's mapping engine automatically determines off-road travel that is not subject to RUC; for example travel on a private road or within a depot.

Our web-based application Depot automatically generates accurate off-road reports and allows you to electronically verify and submit your claims to NZTA, avoiding paper hassle and postage.

KEY BENEFITS

Save time

Removes paper and administrative time from the claims process

Improve profitability

Makes it easy to claim all the refunds you're owed, and delivers refunds faster

Save costs

Submit RUCOR forms electronically with the click of a button, at no extra charge

Off-Road Reports Fleet: All Fleets Only Licences I purchased \$42.60 estimated refund expiring within 6 months.

Current Archived Licence Number: The Last 12 Months
