

EROAD FUEL MANAGEMENT

EROAD Fuel Management simplifies fuel management, allowing you to compare fuel records against vehicle distance and location information and identify trends and exceptions across your fleet.

Drive sustainability and performance

Fuel is one of the largest expenses for transport operators. Improved fuel efficiency across your fleet accumulated over time will generate huge savings for your business.

EROAD's intuitive and powerful fuel management module helps you manage your fuel use by combining fuel records with vehicle distance and location information generated by the EROAD vehicle hardware. Fuel data can be automatically imported from all major fuel card providers as well as manually uploaded and managed in Depot.

The EROAD fuel reporting suite helps you understand fuel consumption across your fleet, and identify exceptions and underperforming vehicles or drivers. Better visibility into fuel consumption enables you to address specific issues and monitor progress over time.

KEY BENEFITS

Save on fuel With real-time fuel usage and transaction information, you always know what you have and how it's used.

Better visibility Fuel Efficiency, Fuel Usage and Fuel Exception reporting provides detailed insights into fuel consumption by vehicle, driver and fleet.

Track performance The ability to track idle time, distance travelled and kilometres per litre for your fleet can help reduce fuel consumption and improve vehicle performance

Benchmark efficiency Fuel Efficiency report allows you to benchmark a vehicle's fuel efficiency against the average for its make and model.

FUEL MANAGEMENT_1.0

KEY FEATURES

- › Upload and manage all your fuel transactions securely in one place
- › Automatically import fuel card data from fuel providers, upload bulk fuel data from CSV files and single fuel transactions
- › Reporting suite comprised of Fuel Efficiency Report, Fuel Usage Report, Fuel Exception Report
- › Reporting by vehicle, driver or fleet and selected reporting period
- › View and analyse cost and emission data
- › Export your reports to PDF and CSV formats

One end-to-end solution

EROAD puts everything at your fingertips, saving you time and effort at every turn. You can rely on EROAD's powerful set of tools to take control of your RUC compliance, health and safety, and fleet management, helping you efficiently utilise your capital and reduce the costs associated with fleet operations and management.

EROAD offers a complete suite of user-friendly compliance and telematics solutions, including driver safety tools and reports, vehicle maintenance, and fuel and fleet utilisation reporting. EROAD's independently proven, secure platform guarantees accurate data that you can rely on to provide insight and competitive advantage.
