

# EROAD INTEGRATION - API

EROAD Integration API enables you to integrate rich data with your other business software to reduce your development costs for new business initiatives.

### Enable powerful integrations and insights

Fleet operators want to make use of EROAD's highly reliable, accurate and rich data to make informed decisions. This includes relevant vehicle data supplied by EROAD's partners that can be displayed in EROAD's web application, Depot.

EROAD provides an open, standards-based interface using the REST architecture and provides an easy and intuitive way of communication with EROAD via the HTTP protocol.

Additional fees may apply to the use of EROAD APIs.

### KEY BENEFITS

#### Improve efficiencies

Data is in one place, providing a single view of your business data
