KEY FEATURES

- › In-vehicle companion for continuous driver support
- › Large visual display showing calibrated, accurate speed
- › Visual, real-time feedback to help drivers avoid speeding, harsh braking, sharp cornering, and unnecessary engine idling

"It's really easy for our drivers because it sits in the cab and acts as a guide for them when they're on the road. They don't have to do anything; when they turn the truck on, Drive Buddy is on and giving them feedback. We've seen a huge, huge decrease in speeding events since we installed Drive Buddy."
