

EROAD POSTED SPEED

EROAD Posted Speed delivers real-time driver coaching in all speed zones – empowering drivers to make better driving choices based on road network data.

Build a safety first culture

Equipping drivers with the best in-cab technology powered by up-to-date mapping data gives them the ability to self-coach. EROAD Drive Buddy with Posted Speed provides positive reinforcement with a real-time visual display of accurate vehicle speed in all speed zones on EROAD's in-cab hardware. Empowering drivers gives managers confidence their staff are safe, and reduces the need for continual monitoring.

Preventative driver safety tools such as Posted Speed result in a known reduction in accidents, incidents, near misses and your organisation's health and safety risk. They also save money through improving fuel efficiency, reducing repairs and maintenance, driver turnover, and potentially, ACC levies.

KEY BENEFITS

Real-time speed data Provides drivers with the real-time road network speed data they need to make better driving decisions

Better in-cab tools Gives drivers the ability to self-coach, reducing the need for continual monitoring of driver behaviour

Saves money Safe driving delivers savings from improved fuel efficiency, reduced repairs and maintenance, ACC levies and insurance costs

Safety first Equipping drivers with the best in-cab technology puts safety first and helps your company meet its obligations under the Health and Safety at Work Act 2015

EROAD POSTED SPEED_1.0
