

**EROAD**  **RUC Star**  
*Professional*

“Through EROAD we now have the resource and ability to visually report on and track our four fleet types from Kaitaia to Bluff. The visual picture we receive from the EROAD reporting services enables us to effectively manage our fleet and fuel consumption.

“We also have greater ability to address and reduce over-speed incidents and to reduce fleet idle time. And it helps improve our service offering to our valued customers.”
