

EROAD  **RUC Star**
MILK

Southern Milk Transport is responsible for the transportation of Open Country Dairy Limited milk. Brett Hamilton, Transport Operations Manager, decided to implement EROAD in August last year.

RUC STAR: Southern Milk Transport

INDUSTRY: • Milk transport

“Before we had EROAD installed it was difficult to know where our drivers were and how efficient our fleet actually was. Since then, nothing is hidden – we know where the team is and how they are getting on with transporting our milk produce. From EROAD’s ability to integrate with other software, to managing RUC online and fuel efficiency reporting, EROAD’s system provides invaluable information.”

Bret Hamilton,
Transport Operations Manager

If you would like to benefit from the EROAD system:
