

EROAD ★ RUC Star

Ship Shape

With the health and safety reforms coming in 2015, Waitomo is now using EROAD's Electronic Logbook, Driver Vehicle Inspection Checklist and Service module to help us make sure everything is ship shape.

It's part of our company's philosophy of going paperless. Our drivers are no longer running around buying paper RUC licences or filling in paper logbooks. The EROAD system means information is now at everyone's fingertips. And it's the easiest to use system I've seen.
