# EROAD Day Logbook

## Simplifies fatigue management

**We've made it easy for Drivers and Back Office to comply with the logbook rules and regulations.**

EROAD Day Logbook supports drivers to keep on top of their work or rest hours, through either Android or iOS devices. It's just easier managing time proactively when all it takes is a few clicks or swipes, with automated alerts as reminders.

### SECURE AUTHENTICATED LOGIN

Intuitively capture work and rest hours using a secure authenticated login

### PROACTIVE ALERTS

Proactive alerts and traffic light indicators makes complying with the logbook rules and regulations easy

### DISPLAYS AND EMAILS LOGBOOK DATA

Ability to display and email logbook data to support roadside inspections as required

### SIMPLIFY JOB MANAGEMENT

View vehicle location, duty status and driver hours on one screen, or sort drivers by work hours remaining.

### EASILY ACCESSED

Available for both iOS and Android, and viewable on smartphone or tablet

### NZTA APPROVED

Confidence, given it's NZTA approved

## KEY BENEFITS

### Enables driver self-management:

Encourage drivers to take a proactive approach to managing their own time

### Simplifies fatigue management:

Alerts and traffic light indicators help drivers and back office to comply with the logbook rules and regulations

### Ensures a high level of compliance:

Provides proof of compliance with an efficient workflow to manage driver violations

### Easily examine driver's workday:

The web-based platform provides investigative tools to examine the driver's logbook

### Improves operations

Real-time\* logbook hours in Fleet Map provides easier, compliant job scheduling

\*the logbook user must be in coverage when changing duty status for it to reflect in real-time on the map.

## SPECIFICATIONS

- ✓ The web-based platform provides investigative tools to examine the driver's workday
- ✓ EROAD Day Logbook is an app for drivers and a cloud-based administration platform
- ✓ The app simplifies fatigue management, by enabling drivers to capture work and rest hours via smartphone or tablet
- ✓ Logbook hours are available in MyEROAD Fleet Map to simplify job management with location, status and driver hours on one screen
- ✓ Efficient workflow to manage driver violations, their resolution, and who actioned the result
- ✓ Visibility of hours worked each day, and each work period to support the management of fatigue, work schedules and payroll
- ✓ Fleet Manager access to driver records provides oversight to ensure that NZTA record keeping requirements are being met
- ✓ Superior cellular and GPS wireless performance
- ✓ Check for activity mismatches between a driver's Logbook activity, and the associated vehicle's Ehubo activity using the Time Alignment Report in MyEROAD

## About EROAD

EROAD develops technology solutions (products and services) that manage vehicle fleets, support regulatory compliance, improve driver safety and reduce the costs associated with driving. EROAD also provides valuable insights and data analytics to universities, government agencies and others who research, trial and evaluate future transport networks. This data enables those who use the roads to influence the design, management and funding of future transport networks.
