# EROAD Messaging

## Stay in touch

**Stay connected with your drivers with EROAD's secure two-way messaging service. Broadcast a message to the entire fleet or specific vehicles, to improve productivity, safety and job management.**

Staying connected with your fleet in the field allows you to assign jobs, reorganise routes and quickly react to current traffic flow incidents and short-term changes.

EROAD's innovative Messaging allows you to exchange messages with drivers in the field in a cost-effective way – on the Ehubo2 screen, or using an Android mobile device.

### ENHANCE VISIBILITY

Secure, two-way messaging with your drivers enhances visibility and improves safety across your fleet

### SIMPLIFY DISPATCH

Real-time messaging improves job management and simplifies dispatch, making it easier for you to meet agreed customer service levels

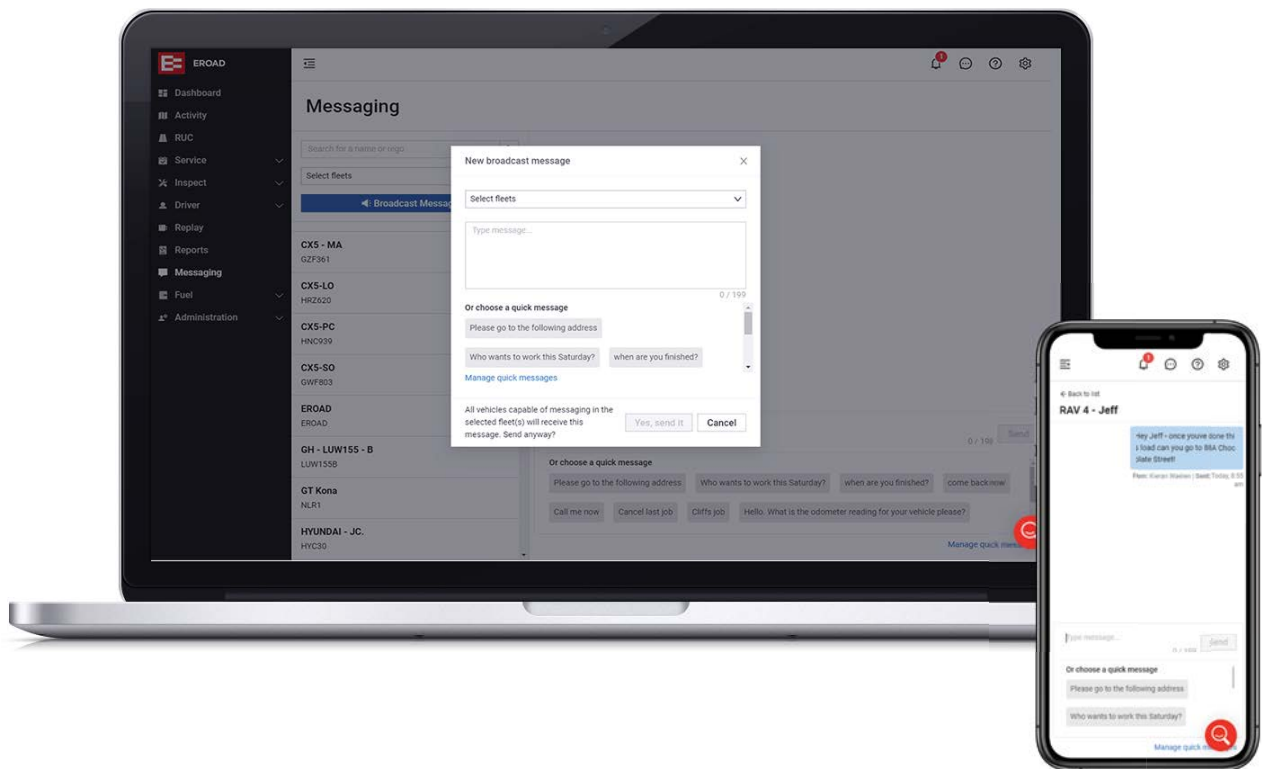

### KEEP DRIVERS INFORMED

Easy-to-use, intuitive system on Ehubo2's touchscreen or Android mobile device keeps drivers informed of where their next job is, and makes staying in touch easy

## KEY FEATURES

- ✓ Broadcast a message to your entire fleet or specific vehicles
- ✓ Know when the message has been received and read
- ✓ Encrypted transmission of messages between Depot and drivers
- ✓ Visual and easy to use for drivers and fleet managers

### About EROAD

EROAD develops technology solutions (products and services) that manage vehicle fleets, support regulatory compliance, improve driver safety and reduce the costs associated with driving. EROAD also provides valuable insights and data analytics to universities, government agencies and others who research, trial and evaluate future transport networks. This data enables those who use the roads to influence the design, management and funding of future transport networks.
