

# Your complete fleet maintenance software platform

# Powerful, yet easy to use for your drivers, mechanics and fleet managers.

Whip Around provides you with a holistic view into your fleet's maintenance and compliance requirements, leading to significant improvements in uptime, efficiency and safety.

I wouldn't be able to do my job if it wasn't for Whip Around - they give me the data I need at my hands instantaneously  
JP Crawford, Steve Crawford Trucking

## Inspections

Keep compliant with the #1 rated eDVIR that over 100,000 drivers and fleet managers trust.

## Issue Management

Whip Around identifies your riskiest assets and their specific defects so you don't have to play detective.

## Driver Docs

Go 100% paperless and never forget to renew your driver and vehicle documents. Risk-free drivers, vehicles and equipment forever.

## Preventative Maintenance Schedules

Take a proactive approach to maintenance before it results in a costly accident or unplanned downtime.

## Work Orders

Consolidate defects, diagnostic trouble codes (DTC) and preventative maintenance (PM) services to save time on repairs and maintenance record keeping.

## Parts & Inventory

Order and track parts used in work orders with ease using Whip Around's web-based inventory system.

## Key benefits

Improve the uptime of your fleet with Whip Around's integrated fleet maintenance management platform.

### Increase productivity

Automated workflows between drivers, mechanics and fleet managers streamline your fleet maintenance processes. Your team works faster and your fleet and drivers stay on the road.

### Improve uptime

Don't leave your fleet's maintenance up to chance. Take a proactive approach to preventative maintenance before it results in a costly accident or unplanned downtime.

### Reduce costs

Reduce monthly maintenance costs, streamline workflows, & avoid expensive breakdowns.

### Expand visibility

Waiting for repairs can lead to costly downtime. View inspection and defect trends and make informed decisions to ensure the safety and performance of your drivers and fleet.

### Reduce risks

Keep your team talking and your vehicles running like well-oiled machines with real-time messaging, proactive PM, accurate reporting and increased accountability.

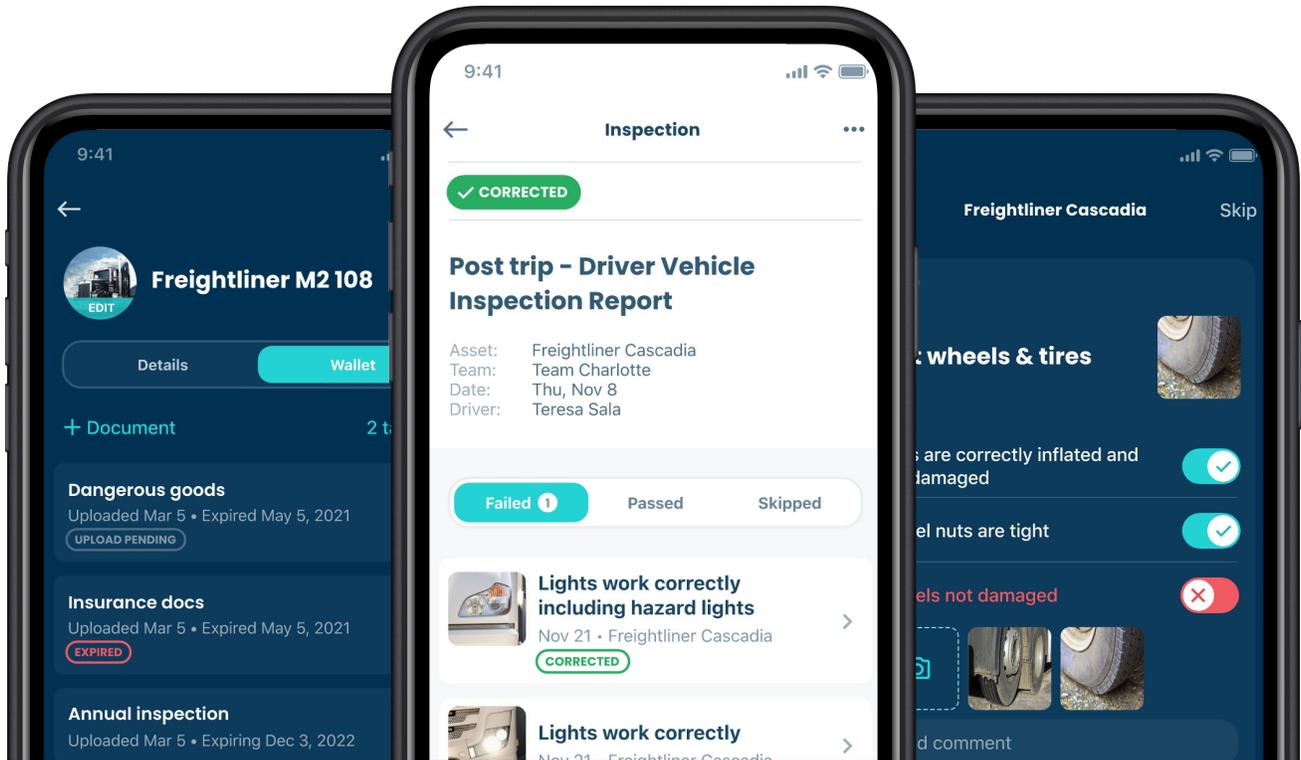

### Fuel Tracking

Monitor fuel usage data in real time to improve your fleet's efficiency, reduce costs and maximize profitability.

# Provides fleet managers with a holistic view

Whip Around's integrated software provides fleets with a holistic view into their fleet's maintenance and compliance, leading to significant improvements in uptime, efficiency and safety.
